Joe,

For me, next steps on Smurfit and CFAC are to request the State Project Officers have a conversation with the RPM about expectations for 2016 so that an estimate and narrative could be drafted for EPA consideration. That is my plan, if we need to discuss let me know.

Hi, Tom:

Thank you for the update. I'll talk to Roger about BN Somers. Please let me know if you need anything further on Smurfit or CFAC.

Thanks,

Joe

Joe,

With the signing of the AOCs for Frenchtown and CFAC, we will be working with the RPMs to develop grant applications for Special Account funding. I presume that to be an appropriate step, also in conversation with Ben regarding the 5 year review at BN Somers, an amendment to that TA will be requested. Has Roger discussed that with you? Let me know and thanks for statements today in the AR call, really did think that by providing the easier analysis that we'd set the stage for the regulatory discussion. Oh well, I did ask Daryl to work with Nikia to set a time when the technical duo could get together and discuss.

Tom
